The new year finds the politically interested in Canada's Capital, both the detached observers and the active participants; studying the standing and the possibilities of Canada's political parties. While provincial and federal politics are not officially bound together it is recognized that a party's provincial status is an important factor in its federal influence and position. Our four main parties Liberal, Progressive Conservative, C.C.F. and Social Credit all have provincial interests and these are carefully weighed in considering each party's prospects.

Provincial Politics

In British Columbia the Liberals, P.C.'s and C.C.F. parties divide public support almost equally, the two former combin-

ing to control provincial affairs with the C.C.F. as official opposition and no Social Credit strength at all. In Alberta the Social Credit dominate in provincial affairs even more than in federal with all other parties in trouble. So low are the fortunes of the Conservatives that their executive council has recommended that the party cease to participate in provincial politics. Reports are that this recommendation has a good chance of passing the provincial convention of the party. The Liberal party whose affairs had also reached a low level has shown some progress on the way back in 1946 and is looking for a new leader. The C.C.F. seems to have lost ground running fourth in the last federal election and with internal dissension. Saskatchewan gives top place to the C.C.F. with the Liberals challenging strongly. P.C.'s and Social Credit still maintain their organizations with little hope of making even a fair showing. In Manitoba Liberal strength predominates with Conservatives second and sharing in the provincial government. However in federal affairs the C.C.F. came second

with a heavy vote in Winnipeg constituencies. Social Credit has made no progress.

Central Canada

The Progressive Conservative party dominates the field in provincial matters in Ontario with the Liberals a quite-distant second and C.C.F. third. In federal affairs the positions are maintained but with the Liberals challenging closely. In fact, outside the Toronto Area Liberals have the high vote. The C.C.F. are active in Labor circles but still run a bad third and the Communists carry on their usual type of campaign. Quebec gives only one of the national parties substantial support in either provincial or federal affairs. Provincial affairs are controlled by the Union Nationale and federal opposition to the Liberals comes from a number of provincial movements. The Social Credit party is not considered a serious force in spite of its one bye-election win.

The Eastern Provinces

The three Maritime Provinces favor the Liberal party with the Conservatives not a very close second. The C.C.F.

run a bad third in spite of their position as official opposition with two members as sole opponents of the Liberal government. Again the Social Creditors are not a factor.

National Affairs

Evidence of Canada's progress is very evident in the figures just released on importation of coal, coke, petroleum and gasoline. For the first ten months of 1946 the importation of these power items was four times that of 1939 in money value. Costs of these now average 65 percent more than in 1939 which leaves the actual volume importation 2 1-2 times what it was in pre war years. United States remains our principal source of supply. The maintenance of this National prosperity for our people must be the objective of all our National policies and Actions.

Suffering China Calls

to Canadian Farmers

WAR has spread wreckage and suffering among the 500,000,000 people of Canada's Pacific neighbor—China.

Blasted from farms and villages, millions of Chinese families are homeless, hungry and in rags, dying daily from starvation and disease. China was first to feel the Fascist onslaught. For eight terrible years—from July, 1937 to August, 1945—China heroically breast the aggressor's hordes. Two years longer than any of her allies!

Farmers Call to Farmers

To-day, China presents a heart-rending spectacle to Canadians mercifully spared the ravages of enemy guns and bombs. And especially to Canadian farmers!

About 83 per cent. of China's 500,000,000 people are peasant farmers. To the scourge of Japanese planes and artillery have been added, in many districts, flood or drought, and shortage of seed grain. Besides the need for food, clothing, medical supplies, hospital equipment, there is urgent need for reconstruction of farms and homes.

Canada's Aid Essential

During the war, Canadians, through The Chinese War Relief Fund, sent to China some \$2,654,000 in money and over 1,464,000 pounds of used clothing, valued at some \$2,929,000. But the aftermath of war can be more terrible than war itself. The world-wide relief work of the United Nations Relief and

Rehabilitation Agency (UNRRA) ends March 1st in China. The burden will fall on voluntary agencies. So Canadian Aid to China (formerly The Chinese War Relief) is making a national appeal. This is an urgent call to Canadian farmers to support this effort.

How YOU Can Help

To make it more convenient for YOU to participate, all Elevator companies have been authorized to receive donations of part of grain deliveries as Aid to China.

When you deliver grain to your Elevator, simply tell the Elevator Agent how many bushels you wish to donate to Canadian Aid to China.

The aim is one per cent. of the storage capacity of each Elevator. Will YOU help to make this possible?

Enlightened Self-Interest

This appeal is to our common humanity as citizens of the One World from which to-day we dare not isolate ourselves. In helping to rehabilitate the Chinese, we are hastening a return to world health and progress.

But we may well remember that China is not only a World Neighbor of Canada, but a good potential customer for our products. In helping her to recover from her war wounds, we are building goodwill and laying the basis of profitable relations in the days to come.

WHAT TO DO

When you deliver grain to your Elevator, simply tell the Elevator Agent how many bushels you wish to donate to CANADIAN AID TO CHINA. Your Agent will make out a ticket in the name of CANADIAN AID TO CHINA for your donation. Official Receipts will be forwarded to you from your Provincial Headquarters for income tax purposes.

No cheque to write, no cash to pay, no mailing to do. It's as simple as that!

**CANADIAN FARMERS, BE GENEROUS! CHINA,
A GOOD NEIGHBOR, NEEDS YOUR HELP!**

This is the only national appeal to be made in Canada during the next twelve months for Chinese relief.

WEDDING

A pretty wedding took place recently at First Lutheran Church, Calgary, when Esther Elizabeth, eldest daughter of Mr. and Mrs. C. A. Carlson of Irricana, became the bride of Walter Permann, son of Mr. and Mrs. C. C. Permann of Carbon.

The ceremony was performed by the Rev R. R. Hinchey of Carbon, before an altar with lighted tapers and baskets of carnations and bronze spray mums.

The bride entered the church on the arm of her father who gave her in marriage. She was becomingly attired in a floor length gown, and long veil of traditional white. Silver slippers matched the sequin trimming of her dress. She carried a bouquet of red sweetheart roses, and red rosebuds held her veil in place. Her only ornament was a string of pearls, a gift of the groom.

Miss Anna Margaret was her sister's bridesmaid and wore a floor length frock of turquoise blue. Her bouquet was pink carnations. She also wore pink carnations in her hair. Black pumps with gilt nail heads com-

pleted her costume.

Little Constance Rempfer, niece of the groom, was a dainty flower girl in pale pink and carried an old fashioned nosegay.

A reception was held at the Empress Grill when 75 guests sat down to the wedding dinner.

The bridal party were assisted in receiving the guests by Mrs. C. A. Carlson, mother of the bride and Mrs. C. C. Permann, mother of the groom. The former wore a dress of turquoise blue with black sequin trim and matching hat. The latter wore black with pink net insertions in the yoke.

Appropriate wedding music was played by Mrs. Kenneth McRae. During the signing of the register Miss Dorothy Sherring of Grainger sang "Always" and sang two solos at the reception.

Mr. Bryon Henricks of Irricana was master of ceremonies at the reception. The toast to the bride was proposed by Mr. Chas. Johnson of Irricana.

CANADA'S Health

Eye Strain

How to recognize eye strain is explained by National Health leaders at Ottawa. Among the first signs of an abnormal eye condition may be: itching lids, styes, redness of the lids or eyes, burning of the eyeball, light sensitiveness, headaches, dizziness or even disturbed stomachs. Even unusual fatigue after work may indicate eye strain.

Consultation with the eye clinic or family physician is recommended immediately such conditions are experienced.

Rickets Report

Rickets are rife in some parts of Canada. Surveys made by government nutrition authorities in one province revealed that one child in every ten had definite signs of rickets.

It was also discovered that at least six out of ten had not been getting a cod liver oil.

Vitamin D, which is present in fish liver oils, is used by the body for proper development of bones. Nutritionists therefore urge parents to forestall rickets by including some form of fish liver oil in the children's diet all the year round.

Chicken's Chance

Pointing to the care taken of livestock particularly in feeding health authorities declare that many Canadian children aren't given a chicken's chance, in their diet.

A variety of carefully chosen foods is essential to health. Deformed bones, anaemia skin affections, goitre, sore eyes, loss of weight, digestive disturbance and even mild unnoted conditions may occur, particularly in children, as a result of the food which they eat, or don't eat.

Cold Comfort

Want to avoid colds? Here's how, according to Ottawa health and welfare authorities: eat regularly, having well balanced meals; sleep in well ventilated rooms; clean out impurities of the air passages by deep breathing, and stay away from obvious cases of sore throat and head cold.

Foods That Fit

Experts declare that food plays a great part in keeping us fit. But, they warn, don't expect overnight benefits from diet.

Good nutrition will give you sound teeth, strong bones, sharp eyes, clear skin and a feeling of well being only after a proper dietary has been followed over a period of time.

Good eating habits cur well as conserve. It's never too late, say nutritionists, to adopt healthful eating habits but, like all good things, the sooner you get the better.

Mr. and Mrs. Harold Kimmel of Brightview, Alta., were holidaying at the home of Mr. and Mrs. H. Merrifield.

Mrs. Nellie Johnston and S. Johnston accompanied by Miss Enor Holton of Vulcan were visitors at the home of Mr. and Mrs. Stan Kane.

WORLD OF WHEAT

By H. G. L. Strange

The World Will Always
Need Food

A New Year, but not yet quite at peace, is upon us. What will it bring forth? That, no one can tell. But there is one thing absolutely certain. Good times or bad times, employment or unemployment, peace or war 2,000 million people in this world must eat, so whatever the circumstances, there will be, as ever, necessary and important work for farmers to do in producing foodstuffs for the hungry people of this world. The F.A.O. has brought to our attention, what was never so well realized before, the simple fact that half the population of the world never have enough to eat even of the plainest food, and that one third of the people, in such rich countries as the United States and Canada, do not have enough of the proper kinds of food.

There is, therefore, certainly a great need for all the agricultural products we in Canada

and all the farmers in every other country, can possibly produce. Can we develop such state manship as will accelerate and impede, the flow of the farmers products to hungry people, in exchange for the fruits of their toil? That should be the main task for 1947.
